Executive Committee Meeting 7 and 8 February 2015 Frankfurt-am-Mein, Germany

Paper number:	EC15_13.b
Author:	Dennis Green, ZS4BS
Subject:	A digital coding system for QSL cards

Recommendation VA14_C3_REC_11

It is recommended to task the Executive Committee with evaluating if a digital coding system for QSL cards as mentioned in VA14_C3_31 exists up to now in practice, including Regions 2 and 3.

Discuss and recommend a suitable digital coding to be printed on printed QSL labels to ease automatic sorting and handling in the shack. The use of the digital code is to be encouraged via all suitable media.

DARC offers support on technical issues according digital coding on QSL cards.
