

INTERNATIONAL AMATEUR RADIO UNION
REGION 3
MONITORING SYSTEM REPORT

August, 2006

B.L. Manohar Arasu VU2UR

The Sound of Hope, through Mr Yue Chen, wrote to many amateurs requesting support to their cause and using the amateur radio frequencies. This was bluntly turned down by almost every correspondent and all wanted the amateur radio frequency bands free of such activity. That was a good unity shown. The boldness, temerity and audacity of Mr Yue Chen, asking for such support, was almost a foolish act.

The use of the frequencies within the 18 and 14 MHz amateur radio band, appears to have been stopped hence forth, but they are of course elsewhere, like 14600 kHz. They are found to be using the frequencies 7130 and 7185 kHz, in our extended 40 m amateur band in Region 3, and thus still causing interference.

The various other regular intrusions heard are from the Sri Lankan Fishing Trawlers, the various Indonesian Pirates in the 40, 20m band frequencies, the single letter beacons, various data stations, etc.

This month's contributors:

ARSI: VU2DCT, VU2UR

JARL: JA2WO, JA2ANM, JI2GPM, JA0AD

NZART: ZL1BYA
